

Our family listens daily, almost hourly, to the Christian FM radio station K-LOVE (88.1) here in Omaha, Nebraska. I am concerned that K-LOVE will be replaced by an LPFM broadcaster. I believe that radio stations like K-Love serve a very important purpose in our nation, and provide a type of programming that a local station could not duplicate. Please consider making the effort to safeguard the present systems so that we do not lose a valuable part of our quality of life. Thank you, Scot Thompson
